To Whom It May Concern:

J L J AUTO RECOVERY has been doing Repossession assignments for Compass Bank since March 2007.

In that time frame we have assigned approximately 650 accounts with J L J Auto Recovery, with an over 95% recovery rate.

Mr. Schmitt has the most advanced recovery technology and exceptional Skip techniques for those accounts found to be unusually hard to locate.

The average turn around time from assignment to recovered is less than 4 days on the majority of Involuntary repossessions and same day on voluntary repossessions.

Condition reports and invoices are received within 24 hours of a unit being recovered.

I would recommend J L J Auto Recovery to any Financial Lender needing a Professional and Reliable agent to handle their Repossessions.
